### DISCONNECTION PROCEDURES

All Listed Agents shall abide by the following procedures when disconnecting a fire alarm system from a master box:

1. Call the Manchester Fire Department (Dispatch Center) **before** any disconnection activity is performed.
2. Give the Fire Alarm Operator your name and Listed Agent ID. Describe the type of activity requiring the disconnection.
3. After receiving authority from the Fire Alarm Operator take the following steps:

**WIRE MASTER BOX:** Open the red outer door and the white inner door of the master box. Carefully remove the long arm from the mechanism. Replace the long arm with the short arm. Place the long arm on top of the white inner case. Close the white inner door and the red outer door of the master box.

**RADIO MASTER BOX:** Move the Master Box disconnect switch or switches into the disconnect position and silence the interface trouble signal.

Proceed with the system maintenance activity.

4. When the maintenance activity has been completed take the following steps:

**WIRE MASTER BOX:** Open the red outer door and the white inner door of the master box. Carefully remove the short arm from the mechanism and replace it with the long arm. Check to see that the metal portion of the long arm is UNDER the black trip mechanism and that the trip arm reads SET. Check to see that the master box is fully wound. Close the white door and make certain that no keys, short arms or other objects are in contact with the wiring or the bell-shortening bar in the box. Close the red outer door.

**RADIO MASTER BOX:** Move the Master Box disconnect switch to the normal position and move the trouble silence switch to the normal position.

6. If at any time while you are in a Wire Master Box and the box bell tapper sounds you shall stop all activity and wait for the bell to stop tapping. If you inadvertently trip the Master Box, allow the box to complete all four rounds and then send a manual signal of 2 2 2 2. After sending the four rounds of two, **IMMEDIATELY** call the Manchester Fire Department to verify the accidental trip with the Fire Alarm Operator and rewind the box.
